# MANY WOMEN HAYE CATARRH WHO DO NOT SUSPECT IT

THERE are a multitude of women, especially housewives and all other women obliged to be on their feet continually, who are wretched beyond description, simply because their strength and vitality is sapped away by catarrial

and vitalliy is supped away by catarrial discharges.

Porum is such a specific for such cases that when patients have once used it they are permanently cured. It begins to relieve the disagreeable symptoms at once. The backache ceases, the trembling knees are strengthened, the appelle is restored, digestion made perfect, the duil beadache is stopped, and the weakening drains are gradually cured. These results certainly follow a course of treatment with Porum.

The Mucous Membrane is to the Inside What the Skin is to the Outside of the Body.

What the Skin is to the Outside of the Body.

The mucous membrane is to the Inside of the body what the skin is to the outside of the body. It lines every organ, duct and cavity. Catarrhal inflammation, attacking one part is liable to spread to other parts. A neglected cold or slight catarrh is often the cause of lineering and dangerous catarrh.

Women are naturally more sus-byttble to inclemencies of the weather than me. With them a cold is often the starting point of some severe polvic derangement, causing much pain and suffering.

Every woman needs a remedy upon which she can rely to keep her systam fortified against the severe and trying winter weather. If Peruna is taken at the first symptoms of a cold it will cure it before it develops into some annoying catarrhal derangement.

Cold—Read Proof.

Miss Gertrude Stebbing, Room 202, 28

Lasalle Street, Chicago, Ill., writes:

"About a half a year ago I contracted
a severe cold, which settled in my system
and finally developed into catarrh of the
head, which was very troublesome.

"I had frequent headaches, my eyes smarted and my head was stopped up so that I felt dull and stupid all the time. "I had known of so many people who had used Peruna and been benefited that I was sure that it would do me good, and so I bought a couple of bottles and used them. I became better right along, and I had finished the fourth bottle I

icine, for I consider it very good."-Ger-trude Stebbing.

After a cold has been contracted a teaspoonful of Peruna every hour will shortly cure it, leaving no trace of it behind. After chronic catarrh has become established, or the first stages of chronic bronchitis or consumption have been reached, it will take much longer to effect a cure.

It seems strange that as well know, and well established as these facts are that anyone should neglect to profit by them, and yet no doubt there are many wno pay little or no attention to their nud go on catching cold, acquiring chronic catarrh, bronchitts and consumption.

Miss Cora II, Redmond, 206 West Mon-roe Street, Chicago, Ill., Financial Sec-etary West End Histrionic Society.

writes:

"For a long time I had been troubled with catarrh of the ear. I had a constant bizzing and a full feeling in the ear. It was annoying and was also affecting my hearing. I had tried a number of doctors and had taken a great deal of medicine, but nothing seemed to help me until I hegan to take Peruna, and then I noticed an improvement at once, and this went on until complete recovery. Lam very grateful to Peruna, and cannol say too much for It."—Cora H. Redmond.

There is no fact of medical science better established then that a teaspoonful of Peruna before each meal during the winter season will actually protect a person from catching cold. Now if, this is true tand there is no doubt of it), thousands of lives would be sayed, and tens of thousands of cases of chronic catarrh prevented by this simple precaution, within the reach of everyone.

PE-RU-NA CURES CATARRH WHEREVER LOCATED.

THERE ARE A GREAT MANY PEOPLE WHO ARE ACTUALLY INVALIDS FROM CHRONIC CATARRH OF SOME INTERNAL ORGAN WHO HAS NOT THE SLIGHTEST SUSPICION THAT THEY ARE THE VICTIMS OF THIS UNIVERSAL DISEASE.

This is Especially True in Cases of Chronic Catarrh of the Organs of the Lower Part of the Abdomen, or Pelvic Organs.

These Organs are Especially Liable to Catarrh, Which Gives Rise to Weakening Discharges, Painful Irregularities, Backache, Bearing Down Pains, Smarting, Throbbing, With a Host of Other Symptoms Peculiar to Weak Persons of Both Sexes, But Occurring Much More Frequently in Women, When It is Called

Miss Carrie Schulz, No. 1550 Duning Street, Chicago, Ill., writes:

"Poruna, I think, saved my life after I had been suffering with catarrh of the lungs for several months. I coughed at night so that I could not rest, my lungs and throat were sore and I thought at one time that I had consumption. As soon as, I had used Peruna a few days I felt the soreness decrease and I did not cough nearly so hard at night. Gradually I began to improve. My friends had all advised me to go West, where the climate was not so severe, but thanks to Peruna this was not necesary." CARRIE SCHULZ Woman Can be Catarrh. Peruna

very young, aggravated each time I caught cold. This did not prove
sufficiently serious to become obnoxious until last winter. Then my
head and nose were so atopped up that I felt I must do something.
Peruna was recommended to me by a friend. I used it for four
weeks, and found to my relief that it cured me. I have not had a bit
of trouble since. My head is clear, and I can safely affirm that Peruna
cured me."—Miss Flora Hauser.

Miss Edith Reames, 727 North Main Street, Dayton, Ohio, writes:

"I suffered for some time with both ling and female troubles. I had been under the treatment of a good physician for about nine months, without obtaining any relief, when Peruna was recommended to me. After taking twelve bottles of this medicine I have completely regained my health. I am pleased to recommend Peruna to anyone suffering from the above aliments."

Pe-ru-na is Not a Local Treatment.

Catarrh is frequently located in internal organs which cannot be reached by any sort of local treatment. All this is known by every physician.

To devise some systematic internal remedy which would reach catarrh at its source, to eradicate it permanently from the system—this has been the desire of the medical profession for a long time. Forty years ago Dr. Hariman contronted this problem. He believed then that he had solved it. He still believes that he had solved it. He cures thousands of people annually, During all these years Peruna has been the romedy upon which he has relied.

It was at first a private prescription, afterward manufactured expressly for him in large quantites. This remedy, Peruna, is now to be found in every drug store and nearly every home in the land.

Miss Dora Hayden, 784 lith Street, S. E., Washington, D. C., writes:

"Without hesitation I write to thank you for the great relief I have found in your valuable medicine, Peruna, and will call the attention of all my friends suffering with the catarrit to that fact. Belides, I cheerfully recommend it to all bothered me until last sum-mer. While spending my va-mer. While spending my va-suffering with catarrh in any form."

### FEMALE WEAKNESS IS PELVIC CATARRH

Always Half Sick Are the Women Who Have Pelvic

Catarrh of any organ, if allowed to progress, will affect the whole body. Catarrh without nervousness is very rare, but pelvic catarrh and nervousness go hand in hand.

What is so distressing a sight as a poor, half-sick, nervous woman, suffering from the many almost unbearable symptoms of pelvic enturn? She does not consider herself ill enough to go to bed, but she is far from being able to do be the work with the manual property of the control o bed, but she is far from deing and to the ber work without the greatest exhaustion. This is a very common sight, and is almost slways due to pelvic catarph.

It is worse than foolish for so many women to suffer year after year with a disease that can be permanently cured.

Mrs. Julia M. Brown, Secretary of the Woman's State Federation or California, writes from 131-2 Fifth Street, Los Angeles, Cal., as follows:

"I have never known of any patent medicine that did what it professed to do except Peruna. This remedy does much more than it claims, and while I have never advocated any medicine, I feel that it is but justice to speak a good word for it, because I have found it to be such a rare exception.

"I have known several women who were little better than physical wrecks, mothers who dragged out a miserable, painful existence, but were made well and stross through the use of Peruna. I have known of cases of chronic catarri, which were cured in a short time, when a dozen different remedies had been experimented with and without good results. I use it mysoit when I feel nervous and worn out and I have always found the results were most satisfactory."—Julia M. ### THE EXPRESS STRIKE.

Small Offices Closed and Men Changed at Larger Ones.

(Special to The Times-Dispatch.), ROANOKE, VA., March 12.—The strike ROANOKE, VA., March 12—The strike of the telegraphers at small stations on the Norfolk and Western took place at 12 o'clock to-day. The express company issued orders closing 25 small station offices, and engaged now men at the larger places where the operators struck and refused to handle express matter. Much of the express matter for small stations will be sent by freight.

Officials are much disturbed over the strike. The Norfolk and Western is taking no part in the fight. The express officials refused to grant the demands of the operators for increase commissions and the Order of Railway Telegraphers ordered the strike. It is said that independent express offices will be opened at many of the towns affected by the strike.
